## PROFESSIONAL SUMMARY

Senior Frontend Developer with 5+ years of experience architecting responsive, high-performance web and mobile applications using React, Next.js, TypeScript, and React Native. Proven track record delivering scalable, production-grade solutions across e-commerce, healthcare, fintech, and AI-driven platforms at product-based companies and startups. Expert in component architecture, performance optimization, state management, and cross-platform development within Agile environments. Passionate about building user-centric digital experiences that drive measurable business outcomes.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, HTML5, CSS3

**Frameworks & Libraries:** React.js, React Native, Next.js (SSR/SSG), Astro, Gatsby, Expo

**Styling & UI:** Tailwind CSS, Shadcn UI, Chakra UI, Material UI, Styled Components, Ant Design

**State & Data:** Redux Toolkit, Zustand, TanStack Query, SWR, Apollo GraphQL, RESTful APIs, WebSockets

**Forms & Validation:** React Hook Form, Formik, Zod

**Testing:** Jest, React Testing Library, Cypress

**Build & DevOps:** Vite, Webpack, Git, CI/CD, Bitbucket, Jira, Linear

**Platforms & Tools:** Vercel, GitHub Actions, Figma, Storybook, Sanity CMS

**AI & Productivity:** Claude, ChatGPT, GitHub Copilot, Cursor, Hermes, OpenClaw, Prompt Engineering, LLM API Integration, Streaming, Automation

## PROFESSIONAL EXPERIENCE

### Senior Software Developer

Oct 2022 – Present

*Two Point One*

*Remote*

- Architected AI-enhanced dashboards and tone feedback visualizations for MarketsEQ using React, TypeScript, and TanStack Query, delivering real-time communication analytics that drove a 3× increase in repeat user sessions.
- Revamped listing and financing interfaces for American Equipment Exchange using Next.js and Redux Toolkit, improving usability across complex FSBO workflows and boosting successful listings by 18%.
- Refactored patient intake and document submission flows for CloudMedic, a healthcare claims platform, using React Hook Form and Zod validation, reducing bounce rate by 22% and increasing billing flow completion.
- Developed modular, reusable UI component library for Plexus, a startup discovery platform, leveraging Chakra UI and Zustand for state management, increasing investor engagement by 40% on profile pages.
- Launched interactive video shopping flows and influencer-linked product reels for Lovelle using React Native, raising product click-through rates by 22% across mobile.
- Reconstructed the Two Point One marketing site using Astro, Tailwind CSS, and GSAP animations with SSG, improving page load times by 35% and boosting lead-gen form submissions by 21%.

### Frontend Developer

Jul 2021 – Sep 2022

- Built a Chrome Extension UI and real-time analytics dashboard for JobGrabber using React and WebSockets, enabling recruiters to parse job board data with 30% improved efficiency.
- Engineered responsive logistics workflows in Boxdrop, a React Native container tracking app with offline-first architecture, reducing delivery-related support tickets by 30%.
- Developed reusable CMS templates and dashboard components for Nirvana, a fleet insurance platform, using Next.js and Styled Components, cutting content update turnaround by 40%.
- Streamlined cross-platform mobile form flows in DigiSign using React Native, enhancing completion rates by 23% across Android and iOS devices.

**Associate Software Engineer**

Jan 2021 – Jun 2021

*Accenture Solutions Pvt. Ltd.**Bengaluru*

- Constructed a reusable React component library for enterprise platforms, standardizing UI patterns and improving development velocity across teams by 25%.
- Enhanced accessibility on a Fortune 500 healthcare portal, achieving a 95+ Lighthouse score and full WCAG 2.1 AA compliance through semantic HTML and ARIA attributes.
- Implemented a live KPI dashboard for a retail analytics suite, automating performance tracking and reducing manual reporting time by 40%.

**SIDE PROJECTS & VENTURES**

---

**UGenius — Digital Product Studio** | *Founder & Developer*<https://ugeniusapps.com>

- Founded a digital product studio building and shipping web and mobile apps end-to-end using Next.js, React Native, Expo, Sanity CMS, and Vercel — handling product design, development, SEO, and App Store deployment.
- Launched **Color Sort**, a brain-training puzzle game on Google Play Store, built with React Native and Expo, featuring animated interactions, level progression, and a monetization strategy.

**EDUCATION**

---

**Bachelor of Engineering in Information Science**

Aug 2016 – Aug 2020

*JSS Academy of Technical Education, Bengaluru*

CGPA: 8.0 / 10.0
